we are pleased you took the time to learn about us. Here you find our details and a closing message.

Company Overview

Our Story

iSBK has been an idea in development and honing since 2013. Initially conceptualized as Isibuko InServe, and later Isibuko Umbrella.

After numerous changes and unsuccessful partnerships, with each challenge adding strength to our resolve, we proudly present iSBK – an entity honed to its most robust form, ready to compete, and serve the republic of South Africa.

Having been immersed in the security industry for over 11 years, our founder has held roles such as risk manager, shift manager and administrative work across multiple divisions including monitoring, guarding and technical operations.

This comprehensive background equips iSBK with a broad perspective on security management, enabling us to deliver competent and reliable security services.

Why even

consider iSBK

These are emotional and psychological responses iSBK aims to evoke in its residential clients:

Homeowners

- ◇ First and foremost security gives us a sense that we're not helpless and vulnerable.
- ◇ iSBK helps reassure victims of burglary and violence. Installing alarms or cameras helps us restore a sense of safety. The visible presence of patrols or guards reduces fear and uncertainty.

"Safety isn't a luxury - it's a basic need. One of our drivers is to make sure you experience that, every day."

Unique Selling Proposition

iSBK provides mitigation; Think of us as the barrier perpetrators must overcome to access your valuables. We don't intend making that easy.

Why even consider iSBK

These are emotional and psychological responses iSBK aims to evoke in its commercial clients:

Businesses

- ◇ Employees feel more secure in a guarded environment.
- ◇ The presence of professionals signals preparedness for the unexpected. Our clients feel supported in cases of emergency - we help reduce anxiety over “what if” scenarios.
- ◇ iSBK helps Business owners regain control over operational risks.

“You built your business with hard work. We want to protect it with purpose. Let iSBK be the frontline between you and risk.”

Our Business Objectives

- ◇ Competent Security Service
- ◇ Leaving a lasting impression

Mission Statement

Since inception, our mission has been to address the recurring delivery of mediocre service within the local security industry.

We exist to secure and protect what is valuable to you - helping homeowners and businesses sleep better at night.

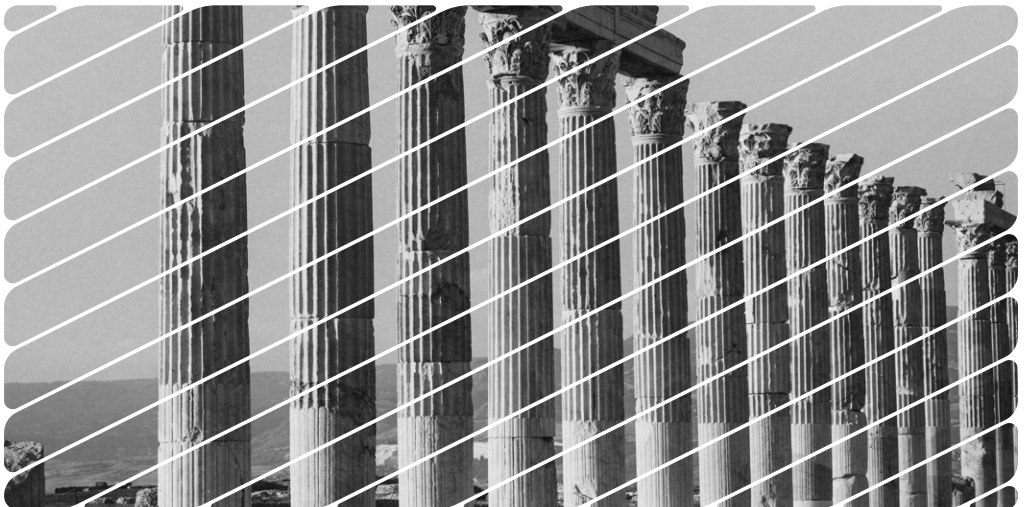

MISSION

The Pillars Of iSBK

◇ **Daring:** The company was founded on an audacious way of thinking. We have since embraced boldness and are unafraid to approach security differently.

◇ **Resolute:** We remain firm in our commitment to delivering resilient and competent security services, with the aid of our three pillars by which our services are governed.

◇ **Relevant:** We continuously adapt and refine our strategies to stay ahead of evolving threats, ensuring iSBK stays effective and competent.

Company Services

Alarm Installation

Gate Automation

Electric Fencing

CCTV Surveillance

Access Control

Guarding

Target Market

We cater to residential and commercial clients who prioritize the safety and protection of their assets.

Vision Statement

To become the first brand that comes to mind for the majority of South Africans when they think security – through strong presence and leaving a lasting impression.

On-Guard So You Can Be Off-Guard

HAPPY Ending
